

MODA SHIELD is an accessory for our 3/10in - 4/10in (8-10mm) wide Solid State Flexible Linear products. Coves and other recessed installation sites are a natural haven for dust and debris, now with MODA Shield you can protect most of our flexible LED series instantly! Our thermoplastic design has a double strip of 3M Self Adhesive tape on the base of the protect which enables the contractor to rapidly install the Shield to a preinstalled MODA LED strip.
