

1 Must be installed by a qualified electrician in accordance with all national and local electrical and construction codes and regulations. Ensure system is de-energized before installation. Review electrical plans and read all installation instructions prior to installation. Failure to comply with the following installation instructions will void the warranty and may result in serious injury or possible death. With the constant development of our products please check our website (www.modalight.com) for the latest installation guide.

La instalación debe ser realizada por un electricista cualificado, de acuerdo con todos los códigos y normativas eléctricas y de construcción nacionales y locales. Asegúrese de que el sistema esté desconectado de la corriente antes de la instalación. Revise los planos eléctricos y lea todas las instrucciones de instalación antes de la instalación. El incumplimiento de las siguientes instrucciones de instalación anulará la garantía y podría provocar lesiones graves o incluso la muerte. Debido al constante desarrollo de nuestros productos, consulte nuestro sitio web (www.modalight.com) para obtener la guía de instalación más actualizada.

L'installation doit être effectuée par un électricien qualifié, conformément à tous les codes et réglementations électriques et de construction nationaux et locaux. Assurez-vous que le système est hors tension avant l'installation. Consultez les plans électriques et lisez toutes les instructions d'installation avant l'installation. Le non-respect des instructions d'installation suivantes annulera la garantie et peut entraîner des blessures graves, voire mortelles. Nos produits étant en constante évolution, veuillez consulter notre site web (www.modalight.com) pour obtenir le guide d'installation le plus récent.

Slim Fixed Bracket

Soporte fijo delgado
Support fixe mince

The installer must ensure the surface is sound, level, and free of cracks or damage. Suitable substrates include steel, aluminum, concrete, or wood. Use properly sized hardware (by others) for the mounting bracket and surface.

Use hardware, bolts, or screws (supplied by others) that are properly sized for the mounting bracket bases and appropriate for the installation surface.

4

Attaching the Fixture to the Slim Fixed Bracket

Fijación del accesorio al soporte fijo delgado
Fixation du dispositif au support fixe mince

Slide the mounting bracket into the fixture from either end.

5

Secure Fixture to Slim Fixed Bracket

Fijación segura al soporte fijo delgado
Fixez la fixation au support fixe mince

Once the fixture is properly positioned on the bracket, tighten the set screws to secure the fixture in place.

6

Mounting the Slim Fixed Bracket with Fixings

Montaje del soporte fijo delgado con fijaciones
Montage du support fixe mince avec les fixations

Mounting Hardware

Drywall	#10	#12	#14
Self tapping	#10	#12	#14
Concrete Anchor	3/16", 1/4"		
Machine Screws	1/4"-20 bolt, M6 nuts, bolts & washers		
Wedge Anchor	1/4"		
Sleeve Anchor	1/4"		
Drop-In Anchor	1/4"		

(By others)

7 Side Mount Bracket

Soporte de montaje lateral
Support de montage latéral

The installer must ensure the surface is sound, level, and free of cracks or damage. Suitable substrates include steel, aluminum, concrete, or wood. Use properly sized hardware (by others) for the mounting bracket and surface.

The MODA Exterior fixture may be supplied with two integrated side swivel mounts for installation on appropriate mounting surfaces. The fixture allows adjustment from vertical to horizontal with a 90° tilt range. One bracket set is required per fixture.

Use hardware, bolts, or screws (supplied by others) that are properly sized for the mounting bracket bases and appropriate for the installation surface.

8 Attaching the Fixture to the Side Mount Bracket

Fijación del dispositivo al soporte de montaje lateral
Fixation du luminaire sur le support de montage latéral

Slide the mounting bracket into the fixture from either end.

9 Secure Fixture to Side Mount Bracket

Fije el accesorio al soporte de montaje lateral.
Fixez le luminaire au support de montage latéral.

Once the fixture is properly positioned on the bracket, tighten the set screws to secure the fixture in place.

10 Mounting the Side Mount Bracket with Fixings

Sleeve Anchor	1/4"		
Drop-In Anchor	1/4"		

(By others)

11 Side Mount Bracket Tilt Adjustment

Ajuste de inclinación del soporte de montaje lateral
Réglage de l'inclinaison du support de montage latéral

To adjust the tilt, loosen the bracket tilt bolts located on the side of the bracket using an M5 (5mm) Allen wrench. Tilt gauges on the side of each mount provide accurate angle reference. Once the desired tilt angle is set, tighten the bolt securely to lock the position.

Tilt Gauge: Each mark indicates a 5° increment.

12

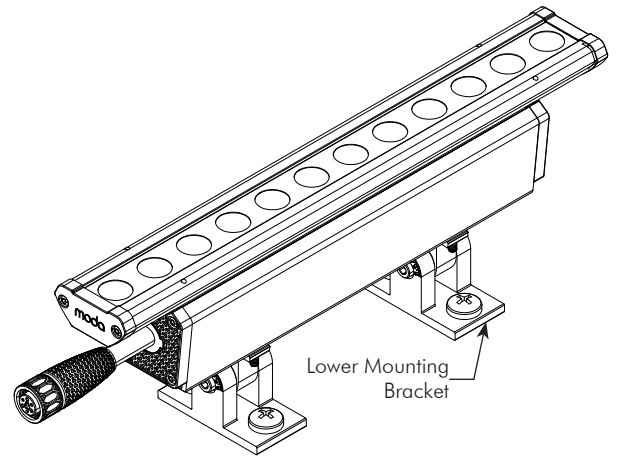

Lower Mount Bracket

SopORTE de montaje inferior
Support de montage inférieur

The installer must ensure the surface is sound, level, and free of cracks or damage. Suitable substrates include steel, aluminum, concrete, or wood. Use properly sized hardware (by others) for the mounting bracket and surface.

The MODA Exterior fixture may be supplied with two integrated lower mount brackets for installation on appropriate mounting surfaces. This allows adjustment in excess of 180° tilt range, 90° from vertical. One bracket set is required per fixture.

Use hardware, bolts, or screws (supplied by others) that are properly sized for the mounting bracket bases and appropriate for the installation surface.

13

Attaching the Fixture to the Lower Mount Bracket

Fijación del accesorio al soporte de montaje inferior
Fixation du dispositif au support de montage inférieur

Slide the mounting bracket into the fixture from either end.

14

Secure Fixture to Lower Mount Bracket

Fije el accesorio al soporte de montaje inferior
Fixez le dispositif de fixation au support de montage inférieur

Once the fixture is properly positioned on the bracket, tighten the set screws to secure the fixture in place.

15

Lower Mount Bracket Mounting with Fixings

Wedge Anchor	1/4"		
Sleeve Anchor	1/4"		
Drop-In Anchor	1/4"		

(By others)

16

Lower Mount Bracket Tilt Adjustment

Ajuste de la inclinación del soporte de montaje inferior
Réglage de l'inclinaison du support de montage inférieur

To adjust the tilt, loosen the bracket tilt bolts located on the side of the bracket using an M5 (5mm) Allen wrench. Tilt gauges on the side of each mount provide accurate angle reference. Once the desired tilt angle is set, tighten the bolt securely to lock the position.

Tilt Gauge: Each mark indicates a 5° increment.

17

Ground Mounting Arm

Brazo de montaje en tierra
Bras de fixation au sol

The installer must ensure the surface is sound, level, and free of cracks or damage. Suitable substrates include steel, aluminum, concrete, or wood. Use properly sized hardware (by others) for the mounting bracket and surface.

The fixture can be adjusted up to 240° for precise positioning.

Use hardware, bolts, or screws (supplied by others) that are properly sized for the mounting bracket bases and appropriate for the installation surface.

18

Mounting Hardware

Herrajes de montaje

	6in	12in	18in	24in
Cable Clamp Quantity	1	2	3	4

35

Leader Cable Wiring

Cableado de cables líderes
Câblage de câble leader

Moda Exterior fixtures utilize proprietary 6-way connectors for both power and 0–10V control. Connector placement at each end of the fixture allows direct end-to-end connection without the need for additional link cables.

Leader cables, available separately in 10ft, 25ft and 50ft lengths, provide both power and control connections. The wiring configuration is as follows:

	UL/cUL	Pinout
Live 100-277V	Black	4
Neutral	White	6
Ground	Green	2
0-10V (+)	Purple	3
0-10V (-)	Pink	5
Not Used	Grey	1

Leader Cable Pin-out

Note: Unused conductors must be capped with UL-listed wire nuts to prevent accidental contact. 0–10V data cables must be installed in a separate conduit from line-voltage wiring to prevent electromagnetic interference (EMI). Failure to separate these cables may result in improper or unreliable control of the product.

36

Fixture to Fixture Connection

Conexión de accesorio a accesorio
Connexion d'appareil à appareil

Each Moda Exterior fixture is equipped with a male input plug on one end and a female output socket on the other. For end-to-end installations, the input plug of one fixture connects directly to the output socket of the preceding fixture.

If spacing is required between fixtures, optional jumper cables are available to bridge the gap.

Step 1: Carefully align the male and female connector.

Paso 1: Alinee cuidadosamente el conector macho y el conector hembra.

Étape 1 : Aligner soigneusement les connecteurs mâle et femelle.

Step 2: Once aligned, ensure the connectors are correctly oriented, as they fit in only one position. Carefully turn clockwise until the threads are fully engaged. Make sure the connector is fully tightened to prevent water ingress.

Paso 2: Una vez alineados, asegúrese de que los conectores estén correctamente orientados, ya que solo encajan en una posición. Gire con cuidado en sentido horario hasta que las roscas encajen completamente. Asegúrese de que el conector esté bien apretado para evitar la entrada de agua.

Étape 2 : Une fois alignés, vérifiez que les connecteurs sont correctement orientés, car ils ne s'insèrent que dans une seule position. Tournez délicatement dans le sens horaire jusqu'à ce que le filetage soit complètement engagé. Assurez-vous que le connecteur est bien serré pour éviter toute infiltration d'eau.

37

Fixture to Fixture Disconnect

Desconexión de accesorio a accesorio
Déconnexion d'un appareil à l'autre

Gently unscrew the connector from the center barrel until the two parts are fully separated.

Desenrosque con cuidado el conector del cañón central hasta que las dos partes estén completamente separadas.

Dévissez délicatement le connecteur du corps central jusqu'à ce que les deux parties soient complètement séparées.

WARNING!

Ensure system is fully de-energized before connecting or disconnecting. "Hot plug" connections can result in a power surge which can destroy the entire run of fixtures.

38

Curved Layouts

Diseños curvos
Dispositions courbes

Each fixture has a short power/signal input cable that can extend to simplify connection or disconnection, while also allowing limited angular adjustment of up to 90° between adjacent units.

Avoid placing strain on the cable when making connections. For larger gaps or wider angles, use the optional jumper cables.

39

Final Fixture Termination

Terminación del último partido
Fin du match final

At the final fixture in the run, always install the terminator cap on the output connector to ensure the live contacts are safely protected.

Step 1: Align the terminator with the connector, ensuring the correct orientation, as it fits in only one position.

Step 2: Carefully turn clockwise until the threads are fully engaged. Make sure the connector is fully tightened to prevent water ingress.

40

Connection types

Tipos de conexiones
Types de connexion

Fixture sizes of 1ft and 4ft can be mixed. Do NOT mix different wattage fixtures or exceed max run lengths (see section 2)
Se pueden combinar luminarias de 30 cm y 120 cm. NO combine luminarias de diferente potencia ni exceda las longitudes máximas de instalación (consulte la sección 2).
Les luminaires de 30 cm et 1,2 m peuvent être combinés. Ne mélangez pas des luminaires de puissances différentes et ne dépassez pas les longueurs maximales autorisées (voir section 2).

41

Attach Optional Louver

Adjuntar rejilla opcional
Fixer une persienne en option

Step 1: Secure the optional louver to the top of the fixture using the four provided screws. For 4-foot fixtures, install four louvers per fixture.

Paso 1: Fije la rejilla opcional a la parte superior de la luminaria con los cuatro tornillos incluidos. Para luminarias de 1,22 m (4 pies), instale cuatro rejillas por luminaria.

Étape 1 : Fixez la grille d'aération optionnelle sur le dessus du luminaire à l'aide des quatre vis fournies. Pour les luminaires de 1,20 m (4 pieds), installez quatre grilles d'aération par luminaire.

42

Detach Optional Louver

Desmontar la rejilla opcional
Détacher la persienne en option

Step 1: To remove the optional louvers from the fixture, first remove the four screws securing the louver to the unit. Once the screws have been removed, the louver can be lifted off and removed from the fixture.

Paso 1: Para retirar las rejillas opcionales de la luminaria, primero retire los cuatro tornillos que las sujetan a la unidad. Una vez retirados los tornillos, puede levantar la rejilla y retirarla de la luminaria.

Étape 1 : Pour retirer les persiennes optionnelles du luminaire, commencez par enlever les quatre vis qui les fixent. Une fois les vis retirées, vous pouvez soulever la persienne et la retirer du luminaire.

43

Attach Optional Louver with 4ft Fixtures

Conecte la rejilla opcional con accesorios 4ft
Fixez le volet en option avec les luminaires 4ft

Louvers are supplied in 1ft (304 mm) sections. A total of four sections are needed to fully cover a 4ft fixture.

Las rejillas se suministran en secciones de 304 mm (1 pie). Se necesitan cuatro secciones para cubrir completamente una luminaria de 1,22 m (4 pies).

Les persiennes sont fournies en sections de 304 mm (1 pi). Quatre sections sont nécessaires pour couvrir entièrement un luminaire de 1,2 m (4 pi).

44

Optional Glare Shield

Protector antideslumbrante opcional
Écran anti-éblouissement optionnel

The Glare Shield is supplied in 1ft (304 mm) and 4ft (1219mm).

El parasol se suministra en longitudes de 1 pie (304 mm) y 4 pies (1219 mm).

Le pare-éblouissement est fourni en longueurs de 1 pied (304 mm) et 4 pieds (1 219 mm).

Glare Shield Attachment: Install the shield by securing it to the fixture using the screws provided in the predrilled holes. For the 4 ft unit, eight predrilled holes and screws are provided to secure the shield to the fixture.

Fijación del protector antideslumbrante: Instale el protector fijándolo a la luminaria con los tornillos incluidos en los orificios pretaladrados. Para la unidad de 1,2 m (4 pies), se incluyen ocho orificios pretaladrados y tornillos para fijar el protector a la luminaria.

Fixation du pare-éblouissement : Installez le pare-éblouissement en le fixant au luminaire à l'aide des vis fournies dans les trous pré-perçés. Pour le modèle de 120 cm (4 pi), huit trous pré-perçés et les vis sont fournis pour fixer le pare-éblouissement au luminaire.

N'utilisez pas de courant ou de tension qui ne correspondent pas à la tension/au courant de fonctionnement indiqué pour le produit.

⚠ Not compatible with voltage step down devices/voltage converters/buck converter.

No es compatible con dispositivos de reducción de voltaje / convertidores de voltaje / convertidor de buck.
Non compatible avec les dispositifs abaisseurs de tension / convertisseurs de tension / convertisseur abaisseur.

⚠ Must be wired on its own dedicated lighting circuit. Do not share the same lighting circuit with motors, fans or computers as this may cause flickering of the fixture.

Debe conectarse en su propio circuito de iluminación dedicada. No comparta en el mismo circuito de iluminación con motores, ventiladores o computadoras ya que puede causar parpadeo en el equipo.
Doit être câblé sur son propre circuit d'éclairage dédié. Ne partagent pas le même circuit d'éclairage avec moteurs, des ventilateurs ou des ordinateurs, car cela risquerait de scintillement de l'appareil.

⚠ Only use compatible 0-10V Controllers.

Utilice únicamente controladores compatibles de 0 a 10 V.
Utilisez uniquement des contrôleurs 0-10 V compatibles.

⚠ Never put power and data in the same conduit or raceway.

¡Nunca se pudo alimentar ni datos en los mismos cables o conductos.
Ne mettez jamais la puissance et les données dans le même conduit ou caniveau.

⚠ There are six (6) distinct outputs. Do not mix outputs, only connect matching output types.

Hay seis (6) salidas distintas. No mezcle salidas; conecte únicamente las que coincidan.
Il existe six (6) sorties distinctes. Ne mélangez pas les sorties, connectez uniquement les types de sorties correspondants.

⚠ If a fixture is not working, please remove from service. Contact Moda Support.

Si un accesorio no funciona, retírelo del servicio. Contacte con el servicio de asistencia de Moda.
Si un luminaire ne fonctionne pas, veuillez le retirer du service. Contactez l'assistance Moda.

⚠ Do not coat the product in paint. This will ruin the product and void warranty.

No cubra el producto en pintura. Esto va a arruinar el producto y anular la garantía.
Ne pas enduire le produit dans la peinture. Cela va ruiner le produit et annuler la garantie.

⚠ Please make sure to install in accordance with the local code.

Por favor asegúrese de instalar de acuerdo con el código local.
Faire S'il vous plaît veuillez à installer en conformité avec le code local.

⚠ No serviceable parts - Do not disassemble.

No hay piezas reparables - No desamblar.
Aucune pièce - Ne pas démonter.

⚠ Do not hot swap fixtures.

No remplace el producto mientras estén calientes.
Feds ne cherchez pas produit tout chaud.

⚠ Do not open fixtures as they are line voltage and could cause a shock.

No intente abrir el producto ya que contienen líneas de voltaje y podría causar un corto circuito.
Ne pas essayer d'ouvrir le produit car ils contiennent des lignes de tension pdría et provoquer un court-circuit.

⚠ Must use terminator.

Se tiene que utilizar terminadores.
Doit utiliser terminateur.

⚠ Do not stare into beam.

No mire fijamente la luz.
Ne pas regarder le faisceau.

⚠ Do not connect line voltage to data.

No conecte el voltaje de línea a los datos.
Ne pas connecter la tension de ligne aux données.
